

Daisy !

This 2 -3 year young hound mix is a survivor ! Yes, she survived a horrible and usually fatal case of PARVO during the winter storm Christmas weekend (Dec 2022). Her bloodwork panel indicates she is NOW a healthy girl, heartworm negative, current on all vaccines, house trained, and ready to cautiously explore new life adventures with her foster family and some DREAM volunteers. She will need someone with patience to help her learn to trust people and her home environment is safe and good. She does seem to prefer male dogs her size as a playmate. Most of her time is spent with a human or canine companion, she is not yet comfortable being alone for long period of time.

DAISY is VERY SHY when it comes to meeting adults on leash; she does BEST when the adult is like a statute and she can come to them for multiple sniffs, sudden moves still frighten her. She is a bit "head shy" but loves chin rubs and will gladly give you a PAW for a cookie when she feels the person (stranger) is safe ! We recently learned she is good with children (had a visit with multiple children under age of 12). We think Daisy would do well in a home with a male furry friend (her size) who can help her feel confident, although her foster parents are doing a great job in helping her gain trust, security and feeling love. She is learning that when excited there is no jumping on folks -we use the OFF command, AND she has FOUND much ALOT of joy in furry toys, toys that squeak, and benebones are a great chewing resource ;-) SHE loves her "meal time", sleeps well in her crate at night, and is learning "counter surfing" is a big NO. She knows sit/stay (to prevent door dashing), down, here (recall with clapping), and OFF. DAISY is still "in training" for leash walking (not a terrible puller...just a big sniffer), and learning to feel comfortable, safe and secure in a crate when family is away from home.

IF interested in learning more about DAISY, please EMAIL your inquiry to PetsRRpassion@gmail.com OR... send us an adoption application found on the ADOPTME page at DREAM4pets.org We typically adopt within a 120mile radius from Miami county OH
