

LUCY*

**Re-homing request*

LUCY is SEEKING a new home and new family with a fenced yard. She is a 4 year young, spayed female terrier who is current on vaccines, very healthy, and current on flea/tick/heartworm prevention. Current owner shared: LUCY is a cuddler (inside) and outside the home loves to play fetch, take walks - walks on leash without pulling, and enjoys car rides. LUCY knows the following commands: Sit, Stay, and Come! She is crate trained and house trained and like many terriers loves/welcomes people. Current owner stated LUCY is "reactive" with dogs and cats; unfortunately, current owner (senior citizen who inherited Lucy from their daughter) has limited resources and can no longer continue caring for or providing necessary training for LUCY. Dream is providing assistance for the owner's re-homing request. If you are interested in adopting LUCY and participating in the necessary training she needs to become less reactive, you can EMAIL petsRRpassion@gmail.com or send in an adoption application located on the AdoptME page at Dream4pets.org

LUCY is currently located in Kettering, OH
