

Mac and Maggie

Mac... neutered male, lab/shep/bernese mtn mix

Maggie... spayed female, lab/husky mix

Both are 7yrs young, lifetime companions, current on vaccines, house trained, crate trained (but not necessary), very well socialized with people and most dogs, good with cats, enjoys time inside and outside. MAC has a laid back demeanor, Maggie is a bit more active, will initiate play, and likes to think she is the boss ;-)... both are easy going family companions. Although well socialized, due to their size (approx 80- 90lbs) an adult family is recommended with a fenced yard. Current location: Fairborn OH

These two furry companions are in need of being re-homed due to long term travel arrangements of current owner and possible relocation (within OH if possible). If you are interested in fostering OR foster to adopt, please Email mmccorm808@aol.com Home visit and references required.
