

Sammy

This young boy (approx 50lb) was found wandering in the middle of a road a few months ago; no one came to claim him so a neighborhood dog lover stepped up to keep this young boy safe. **SAMMY** is now fully vetted, neutered, and is NOW in FOSTER care with other dogs (one acting as his "big brother") and ready for a forever home! He is such a LOVER: Loves interacting with adults or children, great car rider, very calm when with you one/one, sits for treats, can walk on leash without hard pulls, very much enjoys his rope toys and nylabones. We have learned he is CRATE trained and house trained too. **SAMMY** is a quick learner; training would be easy for this boy. His excitement level raises (not reactivity) with any dog he sees because it is HIS opportunity to PLAY and expend some of his energy. And there is an initial excitement for any visitor coming to his foster home ;-) We believe **SAMMY** would do BEST in a family with an older dog that can help remind him of the rules and routine, and offer some playtime too. **SAMMY** is currently in Miami County, OH

Adoption application available on the
