

Trooper

Paint this boy black and you think he is a LAB given his temperament and demeanor... his love for people. He was in foster -short term - for decompression and healing from being neutered. He is now in a small boarding facility; so we are **seeking a new FOSTER or FOREVER home/family.**

Trooper is:

- Approx 2 -3 yrs young, approx 70lbs, Neutered & fully vaccinated
- House trained and crate trained, does not counter surf
- Enjoys the great outdoors as much as being inside w/family
- Great walking or running partner

Has not show any reactivity to squirrels or rabbits or cats

- Very mannerly: No door dashing, waits for you to enter first
- Smart AND Obedient - understands and respects boundaries
- Ignored cats in shelter and does the same with dogs in shared fenced area
- Always eager, excited & relaxed around human companionship
- Great car rider (sits quietly in back just observing)
- Best with children 15yrs or older OR perhaps a military veteran
- Seems most comfortable around older & calmer dogs and cats
- TROOPER rescued from Miami County shelter is known to have a HUGE HEART for people and wants nothing more than to be a loving member of your life, your home & family.
